PROFESSIONAL EXPERIENCE

Full Stack Developer — Quantum Byte Solution (1 Year)

- Built and deployed a full-stack payment gateway platform (Luxkgate) with multi-currency support.
- Integrated multiple banking APIs handling deposit and withdrawal flows across different currencies, secured with 256-bit SHA hashing
- Developed backend services using NestJS and GraphQL.
- Built dynamic frontend interfaces with React (Vite).
- Managed admin dashboards for transaction monitoring and user management.
- Deployed on VPS server with Nginx as reverse proxy.
- Collaborated with the team to develop full-stack applications using the MERN Stack.
- Worked alongside the team to build Law Surface — a legal service platform using Next.js and MongoDB with authentication, dashboards, and admin controls.
- Implemented JWT authentication and protected API routes in coordination with the backend team.
- Designed responsive UIs using HTML5, CSS3, bootstrap, and React.js.
- Used Git and GitHub for version control and team collaboration.

EDUCATION

RIPHAH INTERNATIONAL UNIVERSITY

- Associate Degree Program (ADP) - Ongoing, Expected Completion: 2027
- Web Development from SMIT
- Riphah International College — Intermediate

PROFESSIONAL SKILLS
